2015 Advanced MSOW Crystal Training Agenda

This fast-paced, advanced-level class is for experienced Crystal Report writers. The prerequisite for this class is the completion of MSOW Beginning Crystal Reports.

Topics

- **Summarization and Counting**
  Create a count of static data and averages.

- **Cross Tabs**
  A summary report presented in column and row format. The summary allows you to display a large amount of data from different views in a concise manner that data can be easily analyzed.

- **Charting data**
  Learn how to display your results in chart form.

- **Sub-reports**
  Learn how to create reports that appear as subsections in a main report.

- **Variables**
  Variables are used to optimize the efficiency of sub-reports and are needed if sub-report data will be displayed in Excel format.

- **SQL Expressions**
  Simple SQL expression can be used to display certain data elements thereby reducing the need for some sub-reports.

- **Excel**
  Learn proper formatting and nuances of creating a Crystal Report which will be exported to Excel.
